REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Bridgewater:

I have the honor to present my third annual school report. This is a brief account covering a period of time extending from the spring term of 1931 to March first, 1932.

I welcome this opportunity to reach you, the citizens of the Bridgewater school district, and tell you the things which in my judgment as superintendent of your schools, are necessary to improve the educational opportunities of your children. It is in this spirit that I make the following statements.

The most important school event last spring was graduation which was held on the evening of June 12, 1931. A pleasing program was arranged by the teachers and pupils of the three schools. The exercises were held in the Union hall at the Turnpike. A large audience of interested parents and other citizens was present. The following pupils received diplomas showing graduation from the public schools of Bridgewater: Esther Cass, Donald Atwood, Milton Cass, Elizabeth Atwood, Blanche Avery, Hilda Morrill. The superintendent of schools delivered the address of the occasion, and presented the diplomas in behalf of the school board.

It is a pleasure to report that all the graduates except one are now in high school, either at Bristol or at Ashland. The encouragement which children receive at home has more to do with the children's remaining in high school up to the point of graduation than has the school which they attend. Firmness on the part of the parents, and oftentimes the administration of a little old fashioned persuasion help more than anything else in

making children succeed in school, whether elementary or high.

Taken as a whole our present teaching staff has given satisfaction. When such is the case both the parents and children should cooperate so as to induce the teachers to stay on for a period of years. Schools which have a complete turnover of teachers at the end of the year cannot serve the best interests of our children. Let us help our teachers to make good.

Nothing has been done regarding the suggestions which I made last year concerning jacketed stoves, chemical toilets, adjustable desks, and playgrounds. Provisions should be made to at least make necessary repairs on the roofs of our buildings. The roofs of the River Road and the Turnpike schools both leak. The wall paper in the River Road school should be removed. At the present time the said school is a fire trap. More blackboards should be added to all the schools. It would be a desirable thing to secure better type water tanks for drinking purposes. Suitable shelves should be provided in each school for the children's lunch boxes. The floor is not a suitable place for this purpose. Provision should also be made for the children to properly hang their wraps.

During the winter months when children do not spend as long outdoors as they do during the other seasons of the year, diseases peculiar to children prevail. Absence from school, loss of educational opportunity paid for, failure to make the grade, unnecessary suffering are the result. Towns which have the services of a school nurse working in conjunction with a physician succeed in stamping out such evils. It would be desirable for Bridgewater to unite with other school districts and share the expense of hiring a school nurse, the year round. One yearly examination either by a doctor or a

nurse just to tell children what ails them, does not keep the children in good health.

I have visited your teachers at work often, as I have the teachers of the six towns in the supervisory union. I have kept in personal touch with the teachers' problems, and given my assistance to solve the problems which from time to time are bound to rise. I have also kept in contact and within the reach of the members of the school board to help them with school questions. In a general way I have kept in contact with the parents of our children. Considering the social, religious, and economic resources of Bridgewater, it is reasonable to advocate the adoption of a progressive educational policy capable of educating boys and girls for present day living.

Respectfully submitted,

VINCENT GATTO,
Superintendent of Schools.
